

Build log information

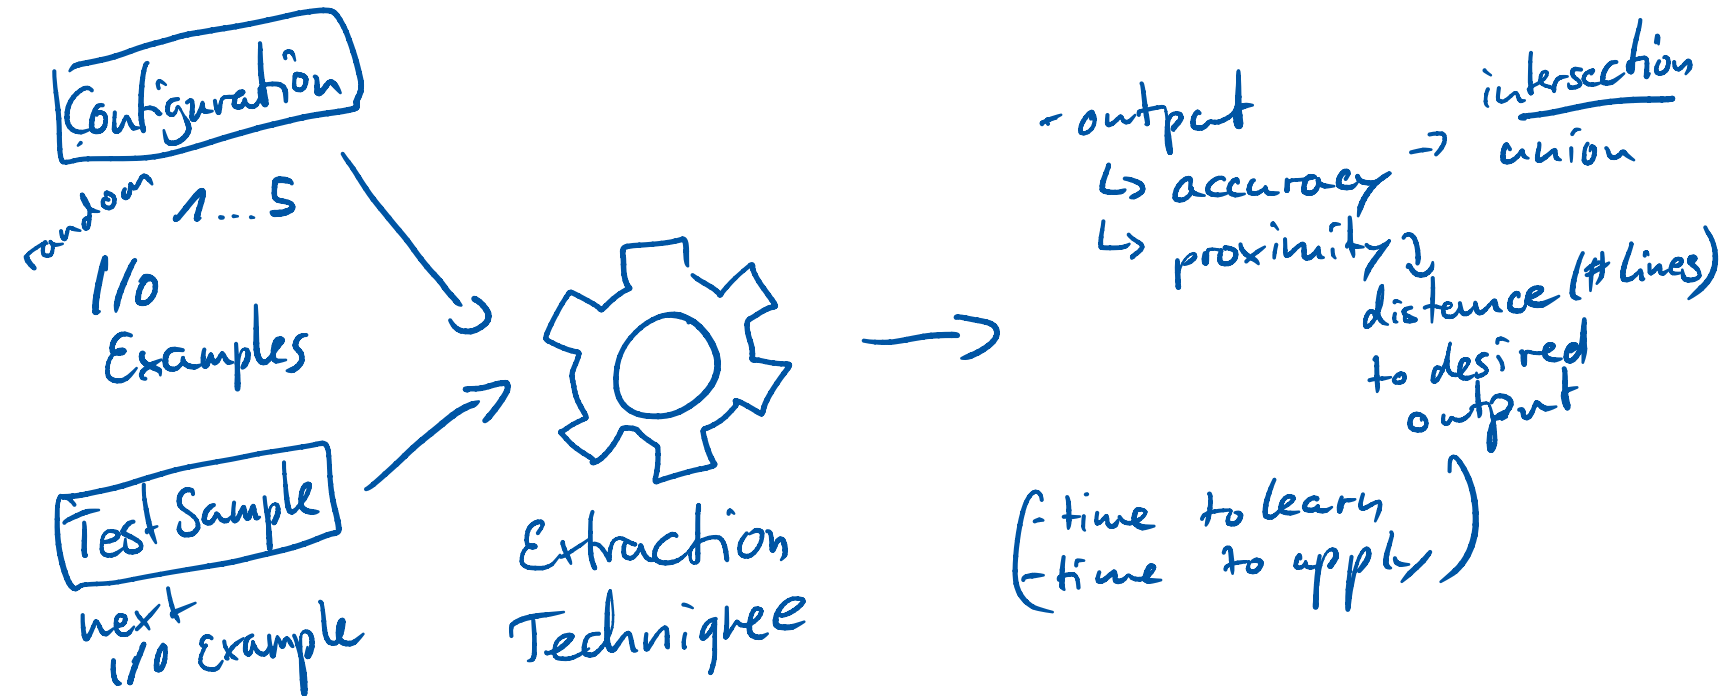

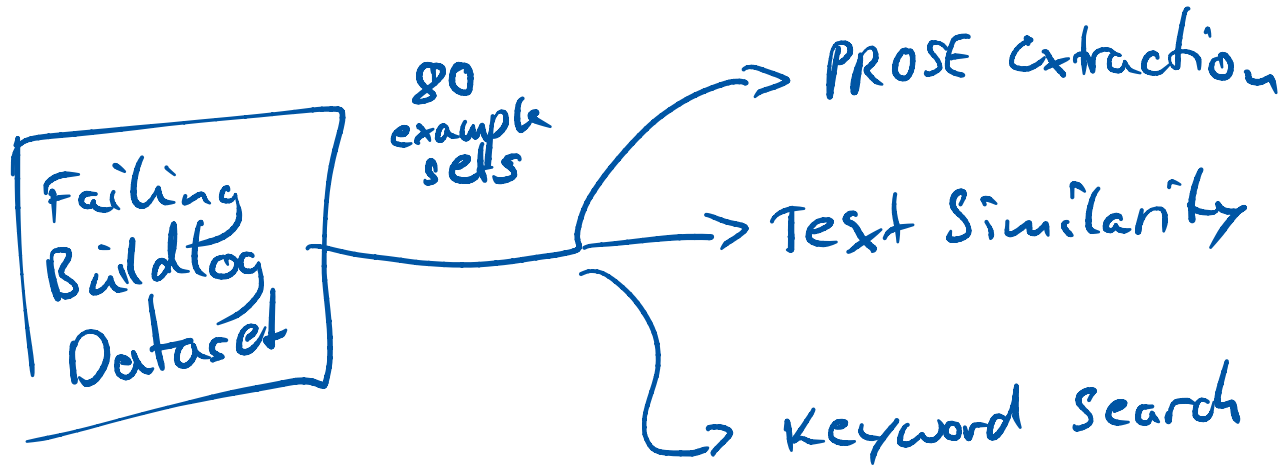

The Build Log Failure Data Set

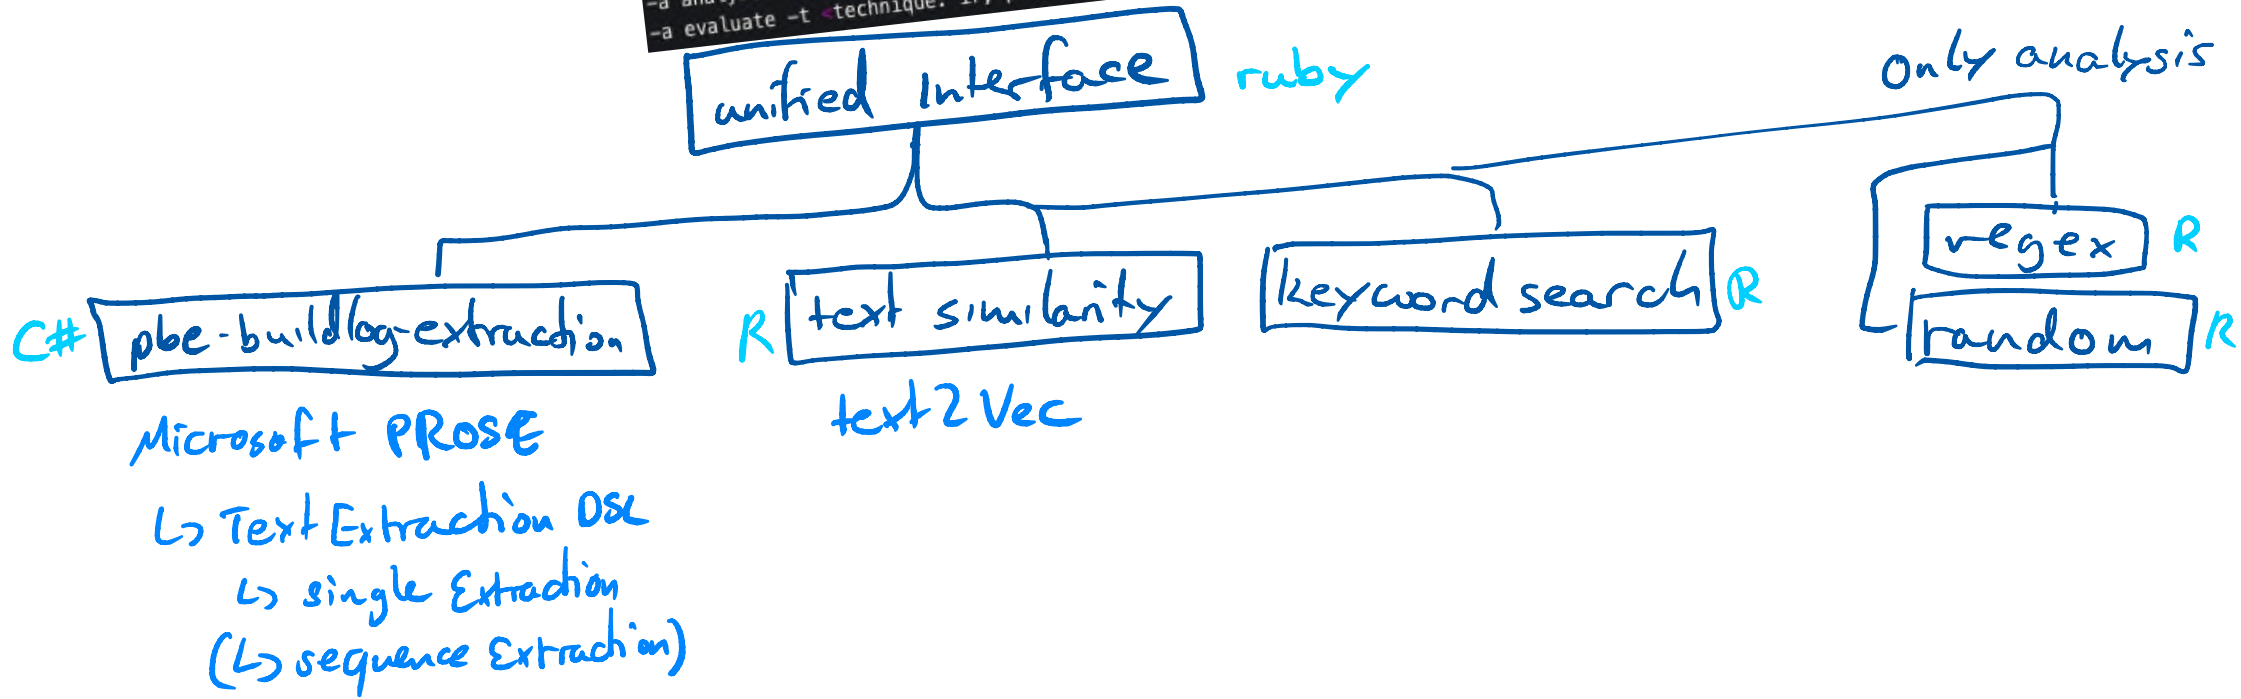

Technique Comparison Study

Our BLIE-tool

```
-a analyze -t <technique> -e <example_set> -p <path_to_file_to_analyze>  
-a evaluate -t <technique: ir, pbe, keyword> -e <example_set> -s <selection_technique> -l <step_count_for_learning> -c <test_count>
```

technique, exampleset, file-path → ANALYSIS → output

technique, exampleset, ^{selection}technique
stepcount, testcount → EVALUATION → results
